# RasMale'

**The First Maldives Eco-city**

**MINISTRY OF  
ECONOMIC  
DEVELOPMENT  
AND TRADE**

RasMale' is a visionary project of His Excellency Dr. Mohamed Muizzu, that is set to transform the Maldives metropolis. This flagship project is part of His Excellency's pledge to solve housing issues in the greater Male' region providing 65,000 housing units including flats and land in Fushidhiggaru lagoon. This one-of-a-kind project is meant to revolutionise urban life and encourage innovation, sustainability and inclusivity providing incomparable living facilities and optimum environment for businesses to flourish.

The RasMale project will be developed based on a zero-carbon safe island concept in par with international standards. 1,153 hectares of land will be reclaimed for this project, making it the largest and most extensive land reclamation initiative undertaken in Maldives history. A land mass approximately three times the cumulative area of the two phases of Hulhumale' combined, RasMale' will be designated as Maldives Eco-city with mixed-used communities, sports venues, entertainment areas, offices, parks and industrial zones. With focus on inclusive accessibility for all members of the society, RasMale' will be a model for urban sustainability with new standards for community health, environmental protection and work-life balance.

## **Location:**

Fushidhiggaru Lagoon (located near Gulhi, accessible via a 17-minute speedboat ride from Capital Male')

## **Area:**

1,153 hectares of reclaimed land, (elevated 3 meters above sea level in the center, 2 meters at its edges)

## **Development will include:**

- 65,000 housing units
- Roads, public grounds, office premises
- Modern express speed boat connectivity from Male' to RasMale'
- Parks, sports venues, entertainment zones
- Hospitals, schools, residential and commercial areas

This is a unique opportunity for investors to set a new benchmark for combining livability, prosperity and environmental consideration for development.
