

Giraavaru - Thilafushi Link

Connectivity from Thilafushi to Giraavaru

The main objective of this project is to extend the connectivity from Thilafushi to Giraavaru, upon completion of which all islands of Greater Male' region namely, Male' - Villingili - Gulhifalhu and Thilafushi will be connected.

Giraavaru - Thilafushi Link

Connectivity from Thilafushi to Giraavaru

Scope:

- Land Link: To design and construct a comprehensive link spanning approximately km, connecting Thilafushi and Giraavaru.
- Dredging & Land Reclamation: To undertake potential land reclamation, acquiring fill material necessary for filling and embankment works for the designated areas as determined by the design.
- Coastal Protection: To undertake any necessary shore protection works for the reclaimed lands, causeway islands, embankments and associated structures.
- Structural Bridge: To design and construct the bridge or bridges encompassing pile foundations, girders and decks that will span both deep channels and / or shallower areas between Thilafushi and Giraavaru, aligning with the requirements of a robust and enduring structure.
- Highway Link Road: To design and develop a suitable pavement structure, construct the carriageway, and install kerbs along with other essential cross-sectional elements, ensuring the seamless connection of both islands for a smooth and reliable transportation route.
- Road Furniture: To enhance the functionality and safety of the finished highway link road with the provision and installation of streetlights, road markings, traffic signs and other necessary features, contributing to a well-equipped and user-friendly transportation infrastructure.
- Access Roads: To assess the condition of the existing roadways at the landing locations of the proposed bridge / link on both islands. Subsequent improvements and construction at intersections connecting the link road to adjoining roadways to enhance overall accessibility and functionality of the proposed link.

Development Model:

- The Government of Maldives and Ministry of Construction and Infrastructure are seeking to discuss the proposed project with established contractors with experience in the area.

We invite proposals and inquiries from interested parties who wish to explore this project.
