

Installation of 200MW Solar PV and Energy Storage Systems Across 187 Islands in the Maldives

The Government of Maldives invites investors to participate in the installation of 200MW solar PV systems, Battery Energy Storage, and Energy Management Systems across 187 inhabited islands, contributing to the Maldives' renewable energy goals of achieving 33% electricity generation from renewable sources by 2028.

Installation of 200MW Solar PV and Energy Storage Systems Across 187 Islands in the Maldives

Objectives:

- Support the Maldives in achieving its renewable energy target of 33% of total electricity demand by 2028.

Scope:

- Installation of PV hybrid systems, Battery Energy Storage System, and Energy Management System across 187 inhabited islands, financed by contractors.

Potential Incentives:

- Exemption from import duties for materials and equipment used in the project.

Envisaged Investment: USD 500 million

Timeline: To be completed within 2 years

Focal Agency: Ministry of Tourism and Environment

For Submissions:

- Investors to submit potential interest to proposals@environment.gov.mv
