

Development of Faculty of Agriculture and Food Sciences

The Government of Maldives invites investors to participate in the development of the Faculty of Agriculture and Food Sciences at the Maldives National University, aimed at fostering agricultural innovation, ensuring national food security, and promoting sustainable agricultural practices. This project provides opportunities for long-term impact in education, research, and food security.

Development of Faculty of Agriculture and Food Sciences

Objectives:

- Establish a world-class Faculty of Agriculture and Food Sciences.
- Equip students with knowledge and practical skills to address global and regional agricultural challenges.
- Foster industry partnerships and research-driven initiatives to advance agricultural innovation.

Scope:

- Construction of a main building.
- Student accommodation for 50 students.
- Agricultural training fields (ABs), operational farms, and a food testing laboratory.
- An on-site shop to support practical learning and operations.

Potential Incentives:

- Location in AA. Thoddoo, known for agriculture and local tourism.
- Strategic partnership with the Maldives National University (MNU) offers dual revenue streams from education and long-term asset appreciation.

Envisaged Investment: Investors to propose a financial model

Timeline: 720 days

Focal Agency: Maldives National University

For Submissions:

- Submissions can be made through the Private Sector Initiated Proposals (PSIP) regime, Special Economic Zones (SEZ), or other relevant channels.
- For more information: secretariat@mnu.edu.mv or projects@mnu.edu.mv.
